Rope Access Specialists
Providing onshore and offshore services to the Oil & Gas, Petrochemical, Utilities, Construction, Facilities Management and Heavy Industries
About Us

Total Solutions Middle East
is the leading rope access and working at height provider in the Middle East.

We solve access problems through the application of teamwork and the considerable practical experience of our management.

We are the rope access company of choice due to our expertise, capability and extensive industry knowledge. Our quality of work and close working relationship with our clients has ensured that our reputation is the best in the region.

As a member of the Industrial Rope Access Trade Association (IRATA) and having achieved the ISO 9001:2008 quality standard, we prove our commitment to both safety and quality.

“Quality and safety are our highest priorities, which we demonstrate through our ISO9001:2008 accreditation and IRATA Membership”.

Our Commitment

We work with you to review your at height working requirements and provide solutions that are both practical and cost effective.

Painting & Blasting

Increasing Efficiencies

Our rope access technicians carry out painting and blasting projects for the region’s biggest companies.

Using rope access, we are able to access areas that cannot be reached by traditional methods. Our rope access technicians are skilled and experienced tradesmen, ensuring the works we undertake are to the highest quality standards.

Rope Access Benefits

- **Reduce costs** - at least 40% cheaper than using traditional access methods.
- **Reduce time** – mobilisation and demobilisation are generally undertaken within an hour.
- **Increase efficiency** - Minimum site disruption
- **Proven** to be the safest means of access in the world
NDT and Inspections

Working on large scale projects for major clients, Total Solutions has a reputation second to none.

Our qualified rope access NDT technicians use the latest tools and technologies to provide our clients with rapid and accurate testing results.

We provide inspection services both onshore and offshore, servicing the Oil & Gas, Petrochemical, Utilities, Shipping and Heavy industries.

Industrial Cleaning

Multi-Disciplined

Our staff are trained in the use of different cleaning methods, tools and equipment to ensure all our jobs are completed and completed properly.

Total Solutions undertakes the largest rope access industrial cleaning projects in the Middle East.

Our value add to clients is our ability to provide a vast array of additional services that support the various maintenance needs of our clients.
Maintenance & Repairs

“One company; many solutions”

Complete Range of Services

Total Solutions has a pool of qualified and experienced tradesmen to undertake all your maintenance requirements.

We are able to undertake all your at height maintenance requirements, including painting, welding, cladding, electrical and plumbing works.

Having a proven track record for delivering on the largest projects in the Middle East, our reputation speaks for itself.
We are an official IRATA training company

Training is vitally important to Total Solutions. Training not only provides our staff with the skills they need, it also ensures quality of work for our clients and supports our needs as a business to continuously instill safety as our number one priority.

Striving towards excellence

Total Solutions is the only company that is a qualified IRATA Trainer and Operator with dedicated training schools in every country we operate in.

We can provide training for client staff that need to inspect works we have completed. Together with our Level 3 IRATA Supervisors, these staff can safely access the working area via rope access to complete inspections.
Unique Solutions
